Community First does not provide financial incentives (rewards) to physicians or employees who conduct Utilization Management (UM) activities for issuing decisions that deny, limit, or discontinue medical necessary covered services. Denials are based on the lack of medical necessity or the lack of a covered benefit.

Information on UM criteria utilized to make a decision can be provided by Member or authorized representative on an individual basis. Requests may be made by contacting Population Health Management (PHM) at 210-358-6050, Monday through Friday, from 8 a.m. to 5 p.m. and pressing "3," when prompted, for authorization to request this information.

Community First's UM staff is also available Monday through Friday, from 8 a.m. to 5 p.m. at 1-800-434-2347 to assist you with any questions you may have regarding the processing of a request for services. Calls received after hours are handled by an i42ece arerough FE

1. **Identify the problem.**

2. **Generate ideas.**

3. **Evaluate ideas.**

4. **Select a solution.**

5. **Implement the solution.**

6. **Evaluate the results.**

for acute bronchitis in otherwise healthy individuals and those with delayed or no antibiotic treatment.^{2,3}

Strategies to assist can include^{4,5}:

- Address patient concerns in a compassionate manner.
- Discuss expected course of illness and cough duration (2 to 3 weeks).
- Describe the infection as a viral illness rather than bacterial or a “chest cold”.
- Explain that antibiotics do not improve symptoms and can lead to adverse effects and antibiotic resistance.
- Discuss the treatment plan and supportive therapy like over-the-counter medications.

Our goal is to ensure proper testing and treatment of pharyngitis to prevent the

CPT: Group A Strep Test	87070, 87071, 87081, 87430, 87650-87652, 87880

QUICK

1. The first part of the document discusses the importance of maintaining accurate records. It emphasizes that proper record-keeping is essential for ensuring the integrity and reliability of the data collected. This section also outlines the various methods used to gather and analyze the information, highlighting the challenges faced during the process.

2. The second part of the document focuses on the results of the study. It presents a detailed analysis of the data, showing a clear trend in the observed phenomena. The findings suggest that there is a significant correlation between the variables being studied, which has important implications for the field. The authors conclude that further research is needed to explore these relationships in greater depth.

3. The final part of the document provides a summary of the key findings and offers recommendations for future work. It stresses the need for continued collaboration and communication among researchers in this area. The authors express their appreciation to the funding agencies and the participants who made this study possible. They also provide contact information for those interested in learning more about the project.
